Print one goal at a time or combine sections into a personalized visual system.

73 pages in US Letter + 73 pages in A4

Bookmarks included for fast navigation on screen.

Use less. Model more. Build independence.

1. CHOOSE ONE GOAL

Select one routine, concept or communication need. Too many visuals at once can reduce attention.

2. PRINT THE BEST VERSION

Use color for strong cues or low-ink for economical printing. Print at actual size, not fit-to-page.

3. MODEL A SHORT PHRASE

Point to the visual, use simple language and wait 5-8 seconds. Accept gestures, AAC, signs or speech.

4. KEEP RESPONSES ACCESSIBLE

Offer two clear choices and adapt motor, sensory and language demands to the individual learner.

5. FADE HELP GRADUALLY

Reduce prompts as success grows while leaving the visual available for independent checking.
